

## OPTION LIST

### ENGINE

Big size radiator & tropical oil  
 Fuel heater  
 Oil bath air cleaner  
 Cold start package & arctic oil

### POWER TRAIN

Electronic transmission  
 Tires  
 Solid tire  
 23.5 R25 REM2 tire

### HYDRAULIC SYSTEM

Hydraulic control, 3 spool

### SAFETY

Beacon light, rotating

### OTHER

Rear view camera  
 High lift boom  
 Short boom  
 Rock bucket  
 Light bucket  
 Side dump  
 ROPS/ FOPS Cabin (HL660L+/HL665L+)  
 Rear window wiper  
 Rear work light

# HYUNDAI + SERIES WHEEL LOADER DESIGN THE FUTURE, BUILT TO LAST

Evolution in design: same excellence, elevated aesthetics.

The upgraded HL630L+/HL635L+, HL660+/HL665+, HL660L+/HL665L+ loaders present a more distinctive livery and ergonomically enhanced cab design preserving their powerful performance while commanding attention with bold, purposeful styling.

# OUTSTANDING PRODUCTIVITY AND FUEL EFFICIENCY

Max. Speed  
**36.0** km/h

Operating Weight  
**10,300/17,300** kg

Bucket Capacity  
**1.7/3.0** m<sup>3</sup>

Power (Gross)  
**92/2,000, 162/2,000** kW/rpm

## Powerful & Fuel-Efficient Turbocharged Engine

- Equipped with a Weichai turbocharged engine, delivering max power of 92/162 kW and peak torque of 500/980 N · m(1200-1400/1400-1500 rpm) for superior performance.
- Compliant with EPA Tier II & EU Stage II emission standards, ensuring high fuel efficiency and lower operating costs.

## Upgraded Hydraulic Pilot Control System **NEW**

- Added an accumulator to the original hydraulic pilot control system, allowing the boom to be lowered even when the engine is off, improving product safety.
- Installed a pilot filter in the pilot control lines to reduce impurities and minimize failure rates.

## Straight Pipe Design of Hydraulic System **NEW**

- Replaced the hose at the center joint with a straight pipe design. This eliminates stress-induced oil leaks at bending points and removes hose kinking issues, while also improving overall aesthetics.
- Reduced the complex tubing between the control valve and bucket cylinder to a single hose connection, streamlining the system.

## Enlarged Cowl Vent Holes **NEW**

- The new side panels are 24% larger than previous models, significantly improving maintenance convenience.
- The vent holes have also been enlarged to enhance radiator cooling efficiency.

# ENGINEERING RELIABILITY: OPTIMIZED HEAVY-DUTY PERFORMANCE

## Optimized Powertrain for Superior Performance

- Best-in-Class Engine & Transmission Pairing. Weichai engine + durable mechanical transmission & torque converter for maximum power and efficiency.
- Torque converter ensures smooth power delivery in all working conditions.
- Flexible gear selection for precise control based on job demands.

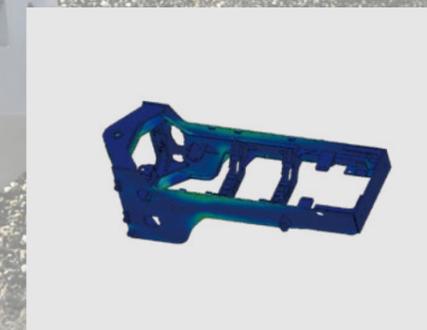

## Heavy-Duty Axle System for High Grade Stability

- Robust Front & Rear Axles - Built to withstand harsh terrains and heavy loads.
- Enhanced Running Stability - Ensures steady performance even in poor ground conditions.

## Ultra-Durable Structural Design

- Finite Element Analysis (FEA) ensures superior strength and longevity.
- Reinforced framework for extended product life.

## Enhanced Cooling Efficiency with Optimized Radiator Design **NEW**

- Upgraded radiator core design significantly improves heat dissipation, ensuring stable performance even under heavy loads and high temperatures.
- Features the new CI brand logo, combining superior functionality with a sleek, professional appearance.

# ENHANCED OPERATOR COMFORT: UPGRADED CABIN & INTELLIGENT DEVICE

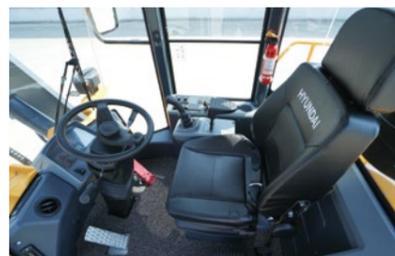

## Enhanced Cabin Design **NEW**

- More Spacious Interior  
Redesigned layout provides greater room and comfort
- Improved Sealing  
Enhanced door and window seals for better insulation
- Reduced Noise & Dust  
Tighter construction minimizes external disturbances

## Suspension Seat with Seat Belt

- New Suspension Seat: Provides improved vibration damping and all-day comfort
- Standard 2" Retractable Seat Belt: Now included as default safety equipment (previously optional)

## Multi-Directional Air Vents **NEW**

- Customizable vent directions allow personalized climate control
- Improved air circulation throughout the cab, Reduced fatigue from uneven temperature distribution

## Standard Rear View Mirror

- Standard Back Mirror for Enhanced Safety and Visibility
- Improved jobsite awareness and safety, reduced blind spots during operation

## Integrated Control Panel **NEW**

- Streamlined Interface: More integrated control layout
- Dual USB Ports: Supports simultaneous device charging/connectivity
- Added Wrist Rest: Comfortable arm positioning during operation

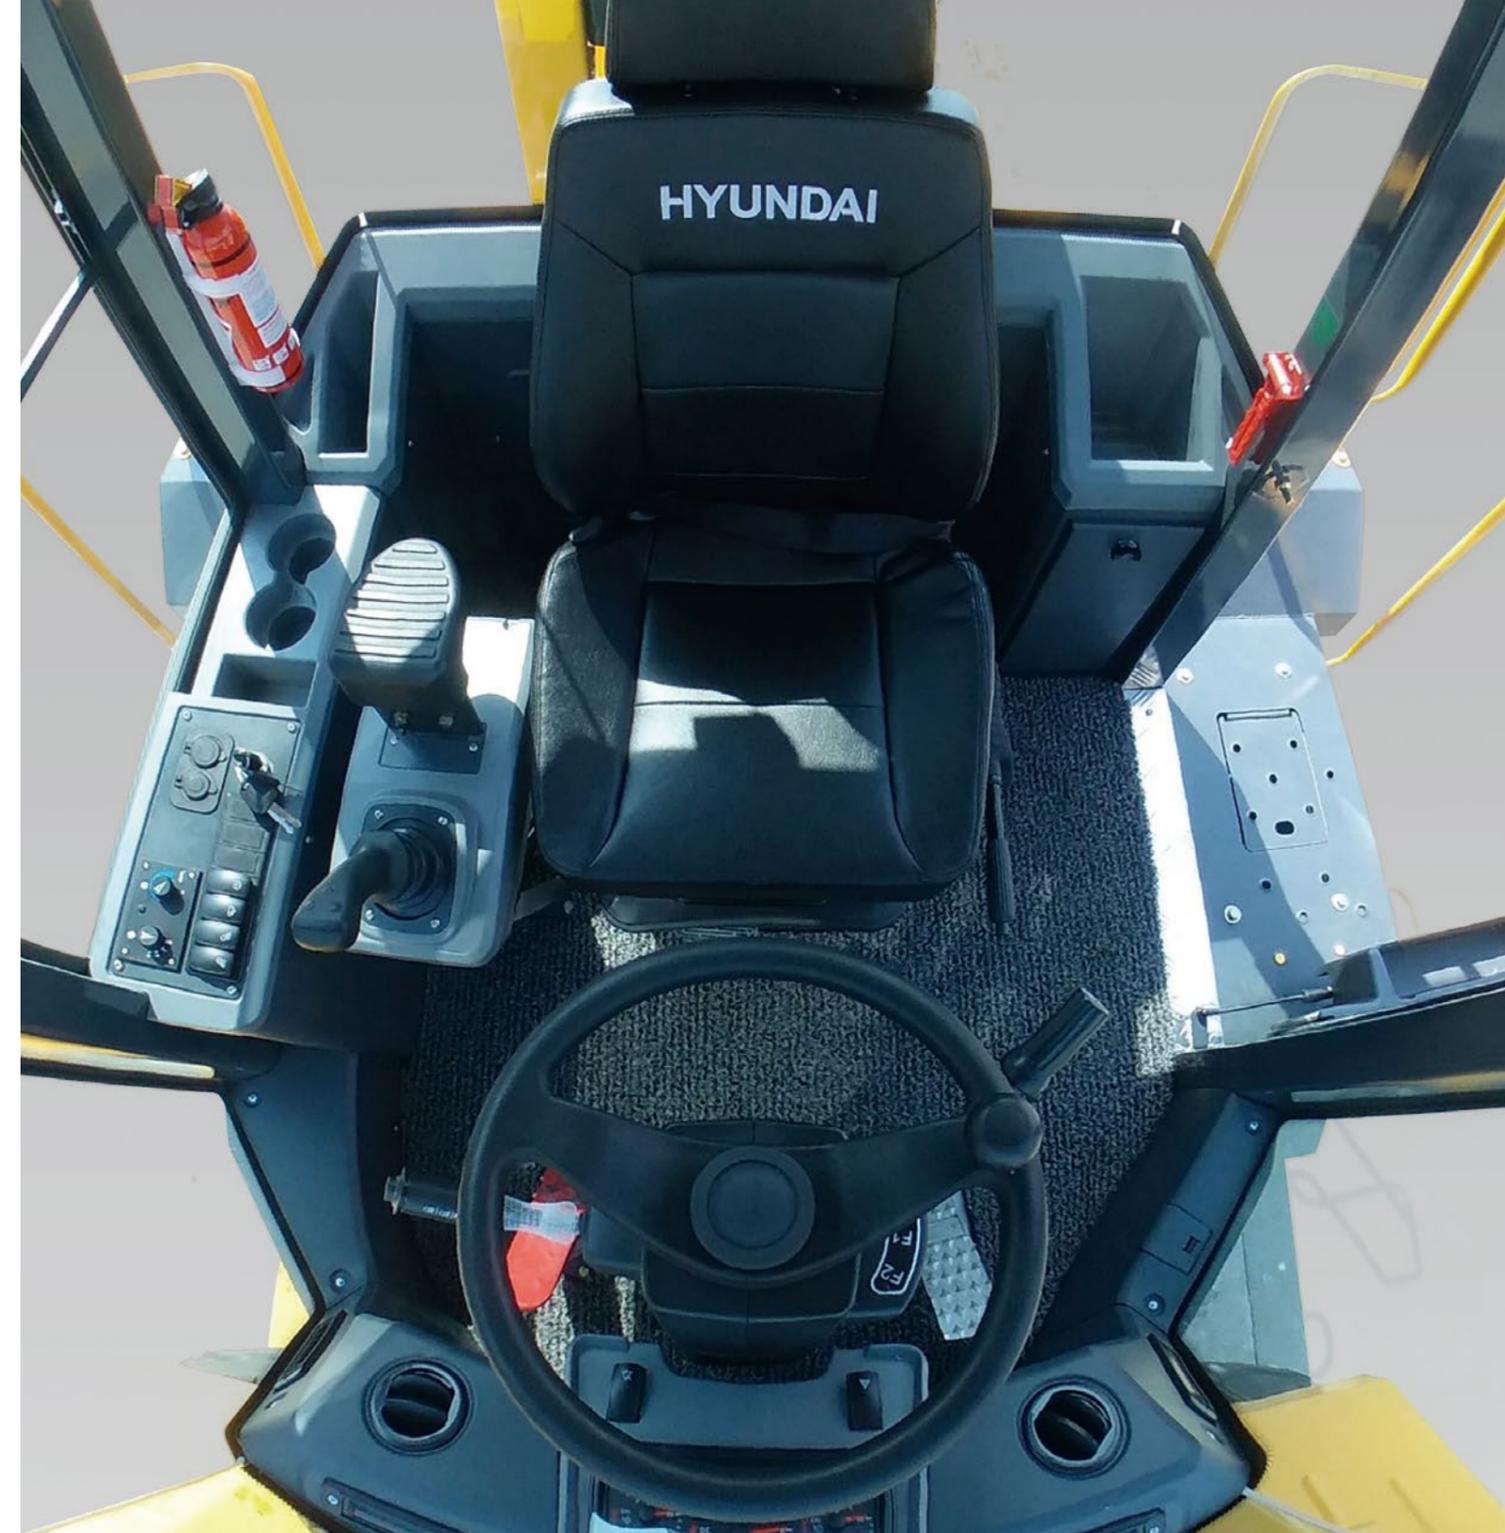

## Rear View Camera **Option**

- Eliminates blind spots behind the machine
- Provides clear view when reversing
- Works in low-light/dusty conditions

## LED Work Lights

- 4 LED work lights: Energy efficient, high brightness LED work lights are equipped for superior illumination

## Upgraded Instrument Cluster **NEW**

- Enhanced dash with smarter machine data visualization.
- Upgraded gauges + digital readouts for critical parameters (Engine RPM, Transmission oil temperature, Hydraulic oil pressure/temperature, Coolant temperature)
- Features Hyundai's new logo startup animation - enhancing both dashboard aesthetics and brand identity.

# EFFORTLESS MAINTENANCE, UNINTERRUPTED WORK

## Non-Slip Platform

Non-slip platform and steps ensure operator's safety.

## Easy Access to Engine Compartment Oil Level Gauge

Engine hood with two side wing flap opened door provide access for maintenance to easily replace engine components and perform daily maintenance.

The hydraulic oil check sight gauge is installed on the side of the hydraulic tank for the convenience of maintenance check from ground level.

## Battery Relay **NEW**

Centralized Waterproof Fuse Box for Batteries - Simplifying Maintenance & Inspection.

## Quick Changeable Brake System

The brake discs can be replaced quickly and easily without removing the tires, which saves maintenance time.

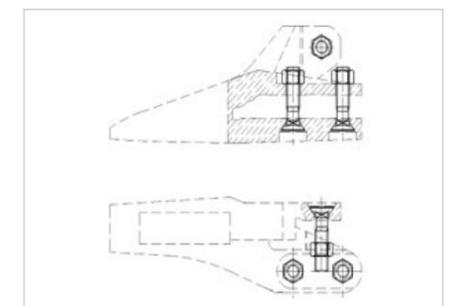

## Easy access filter **NEW**

New transmission fine-filter structure mounted at the articulation point for enhanced maintenance accessibility.

## Enhanced Bucket Tooth Design **NEW**

5mm increased thickness for 30% longer service life. Internal bolt/nut configuration eliminating external protrusions.
